Juices-Spring renewals

In nature spring is a time of new life and regeneration, and similarly for us it is a time to wake up and throw off the lethargy of winter. Drinks for spring need to be able to renew our energy & vitality & at the same time detoxify the body of toxins accumulated from the sedentary habits of the winter months. Certain foods & herbs such as watercress, dandelion leaves, cabbage & leeks have the remarkable ability to do just this.

Tuscan Spring Tonic

Ever since the 17th century celery has been popular with the Italians. Wonderfully aromatic, celery blends well with the rather similar taste of parsley, the pungency of garlic and the sweetness of carrot, to make this thick, highly nutritious vegetable juice. Perfect as a spring cleanser, celery, parsley and carrots all have diuretic properties, aiding the elimination of toxins via the kidneys, while garlic invigorates the whole body, disinfecting and cleansing as it goes.

250ml carrot juice
125ml celery juice
1 garlic clove
1 handful of fresh parsley

Blend all ingredients together & serve immediately.
